DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on July 17, 2002. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

Allowable Subject Matter

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance: Prior art of record do not teach or suggest the claimed thermal head for applying thermal activation energy to a print medium including a thermally active component, a thermal activation device comprising the same thermal head as an activating heating means, and a printer assembly comprising the same thermal activation device. The thermal head comprising the limitation "an anti-adherence layers against thermally-active-component formed on the protective layer, wherein two substantially parallel lines of the anti-adherence layers against thermally-active-component are formed on the protective layer as sandwiching a protective layer anti-adherence against portion directly above the heat-generating element array". With the claimed thermal head, the thermally active component activated by the thermal energy from the heat-generating element array is discharged from the protective layer portion directly above the heat generating element array onto the anti-adherence layer against thermally-active-component, thus prevented from dwelling at place directly above the heat generating element array. This leads to the prevention of the scorched fixing of the dwelling mass of thermally active component onto the protective layer, which is encountered in

the prior art . Hence, the problem associated with the decreased thermal conductivity to the print medium including the thermally active component is effectively obviated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
